### Description

The subject land comprises circa 44.8 acres of land currently planted out as forestry land. The land is of varying topography and is laid out in a rectangular shape.

We understand the site is underlain by Silurian sandstone bedrock commonly described as Greywacke or Gritstone.

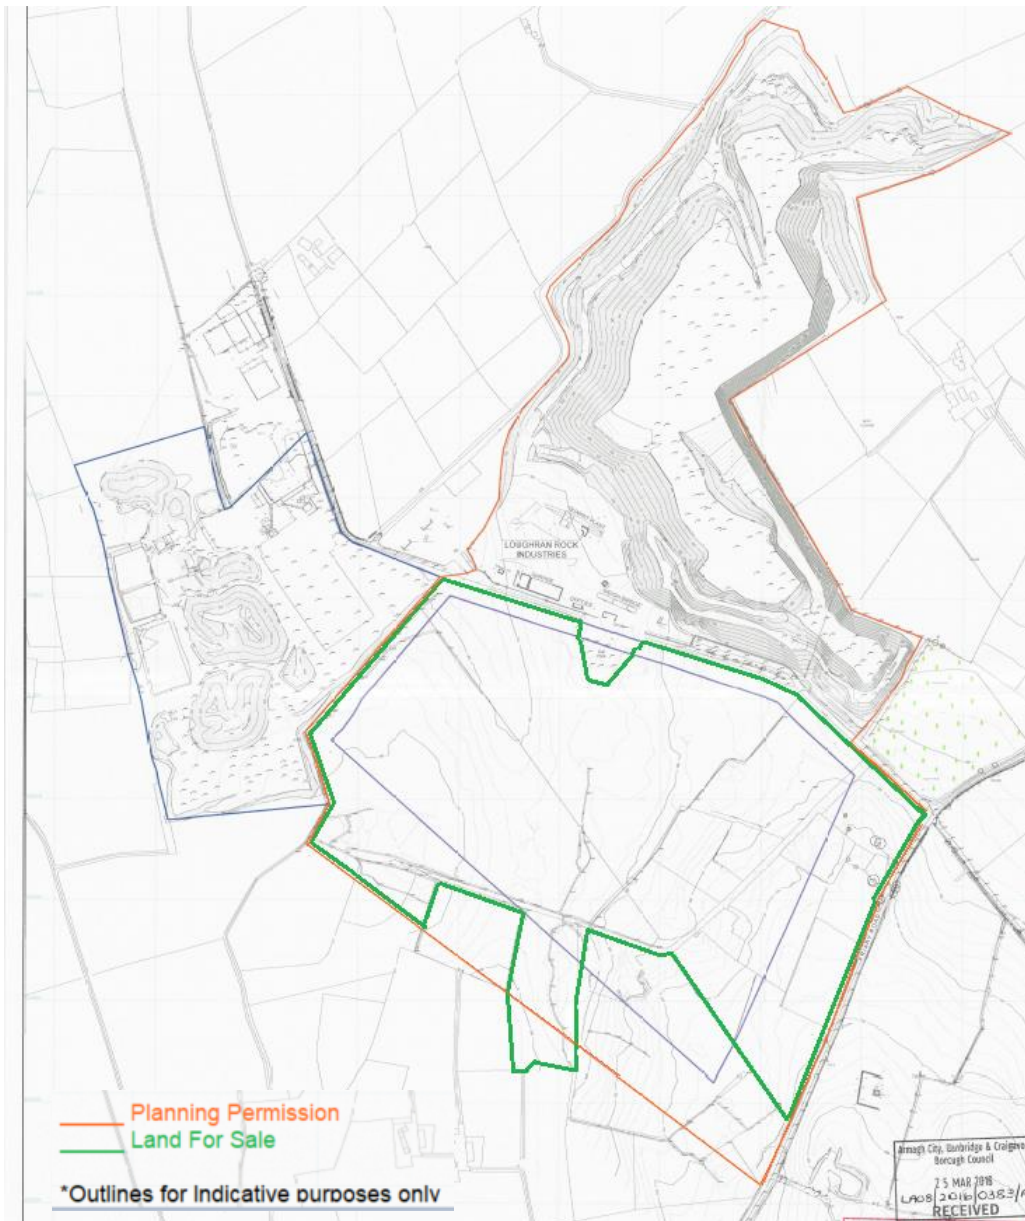

We understand there is a 999 year lease in place over a small part of the site on the northern boundary, currently in use as a carpark.

### Accommodation

All areas have been measured on Spatial NI and are approximate.
